

## Beaujolais Château de Buffavent

### ***History and terroir:***

Denis CHILLIET bought this property in 2009. The vineyard stretches across 20 hectares, 10 of which run directly adjacent to the chateau. Denis CHILLIET places great importance on making optimizing the terroir, as he works the soil intelligently and lays grass in a way that will improve the harvest. These vineyards are sustainably developed to protect the soil's natural biodiversity.

### ***Tasting:***

A ruby red color with aromas of redcurrant and blackcurrant. This wine has soft and round tannins and smooth texture with a fruity, well-balanced feel to it. We recommend tasting this wine at 11 °C.
