

Juliéna Château des Poupets

History and terroir :

This very fine Estate is made up of three hectares of vines surrounding a magnificent house that was the former home of a Lyon silk manufacturer. Since 1975, when her husband died, Madame JORCIN has been helped by two winegrowers (father and son) who work in the vines and take care of the vinification. Georges DUBOEUF has been buying the Estate's wine for several decades.

Tasting :

An intense ruby colour. This wine reveals red and black berry aromas with hints of spices, cinnamon and vanilla. A well-structured wine that offers elegance and length on the palate. We recommend to taste this wine at 16-18°C.
