

Morgon Domaine de la Chaponne

History and terroir:

It was in 1987 that Laurent GUILLET and his spouse took over the family business. Laurent is committed to any effort to ensure that the wine reflects the character of the Morgon appellation.

Most of his plots are located in the part of the appellation where the climate is best, the "Cote du Py". There is a genuine partnership between DUBOEUF and Domaine de la Chaponne. Each year, Georges DUBOEUF purchases the majority of wine produced.

Tasting:

A deep, pleasant red. A fruity, complex nose with dominant cherry notes. A nice, pleasant structure which bodes well for the future. This is a very harmonious wine. We recommend tasting this wine at 14-15 °C.
